

LOB-2G Series

2-GNG Remodel Electrical Box

Project Name:	Order Number:	Prepare by:	Note:	Date:	Type:

This electrical box is constructed with durable PVC, sized for standard devices and switches, and can be used with 90°C conductors. It meets flame class UL94 V0 and UL 514C standards, making it ideal for residential and light commercial applications. Designed for easy installation with a nail-on feature, it ensures front air exhaust direction with a handle exhaust, and is suitable for 2-hour fire-rated walls or ceilings.

LOBR-2G-25

LOB-2G-32

HIGHLIGHT

Fire Safety Rating

The electrical box has a 2-hour fire wall and/or fire ceiling rating for enhanced safety.

Durable Design

Durable PVC construction for long-lasting performance.
